

LARGE FLAT PANEL TRUSS & POLE MOUNTS

CUSTOM OR UNIVERSAL

TPM™ TILT-ADJUSTABLE POLE MOUNT

Innovative solution for digital signage applications where tilt is needed for angled viewing. TPP Tilt-Adjustable Truss Mount is also available.

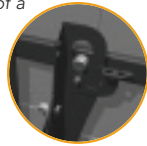

Quick Adjustments

- Gravity-centered tilt provides quick adjustment to any desired angle
- Install in portrait position and use tilt adjustment for side-to-side pivot

Q-Latch™ Mounting System

- Offers quick connect/disconnect
- Secures display with a latching flag
- Includes integrated security with the addition of a padlock

Multiple Ordering Options

- Custom interface for fast install
- Universal for stocking
- Wall mount without interface for pre-installation

Universal Option

Order TPM-U or TPP-U and get PSB-U™ Universal Interface Bracket included.

■ Use with vertical or horizontal poles.

■ Align multiple displays with ease
Preset tilt locking points (0°, 5°, 10°, 15°).

■ Install in portrait or landscape positions
This feature is compatible with poles up to 6" (152 mm) OD; clamps available up to 3" (76 mm).

■ Sturdy steel construction for demanding installations.

Kit includes: 2 clamps for 1"–2" (25–51 mm) OD round or square poles	Kit includes: 2 clamps for 2"–3" (51–76 mm) OD round or square poles	Kit includes: 4 clamps for 1" (25 mm) or smaller OD round or square truss	Kit includes: 4 clamps for 1"–2" (25 - 51 mm) OD round or square truss	Kit includes: 4 clamps for 2"–3" (51 - 76 mm) OD round or square truss

FAQ

1. Do I need to order a separate interface bracket?
A No, each mount includes an interface bracket. Determine which part number will accommodate your display by looking up the manufacturer in the cross-reference chart.
2. Do the pole/truss clamps come with the mount?
A No, the appropriate size clamps must be ordered separately.
3. Can I mount small flat panel displays to the pole or truss?
A Yes, if you have a round pole 1-1/2"– 2" OD (refer to the FSP pole mount). If you have a larger pole, square pole or truss system, order the appropriate TPA mounts (TPA-110, TPA-111, TPA-112).

HOW TO ORDER

1. Determine which style mount will best suit your needs.
2. For the correct model number, look up your display in the cross-reference chart or on the website. Model number includes interface bracket.
2. Determine which clamp size you need for your truss or pole(s) and order the appropriate TPK Clamp Kit. If you don't see the clamp size you need, you can purchase your own U-Bolt clamps.
4. Fax or e-mail your order to Customer Service at 877.894.6918 (domestic) or 952.894.6918 (international), or orders@chiefmfg.com.
