**About Super Warehouse:**

- Over 50,000 brand name computer hardware and software products
- Discount prices
- Friendly and knowledgeable staff
- Five star customer service
- Free shipping on select orders
- Proudly serve business, education, and government clients (we ship to APO/AP and AE addresses)
- 16 warehouses throughout the country
- 99% of orders shipped the same day
- Fedex overnight and even same day shipping available
- In business since 1997
- CNET certified merchant
- Clients we have served include virtually all fortune 500 companies, the US military, thousands of schools, colleges and universities, and municipal, state, and federal government organizations

# 3x ZOOM

## Superb Image Quality.

With PowerShot A70 and A60, you'll capture spectacular images right away. Vivid, radiant, sharply detailed images...not just better than every other camera in this class, but equal to those of higher-level cameras. How? Canon's advanced DiGiC imaging processor, new technology that revs up the performance of the cameras' powerful 3.2 megapixel (A70) and 2.0 megapixel (A60) CCDs. The cameras also feature fine Canon 3x optical zoom lenses, digitally powered to 10x (A70) and 7.5x (A60), and futuristic iSAPS technology for unparalleled precision. Sophisticated yet simple autofocus systems give you fast, accurate focus, no matter where your subject falls in the frame, and whether you're shooting horizontally or vertically.

### SPECIFICATIONS

**Type:** Compact digital still camera with built-in flash, 3x optical zoom and 3.2x digital zoom (A70) or 2.5x digital zoom (A60), 10x (A70), 7.5x (A60) combined zoom.

# Maximum Fun.

## Sleek looks, easy handling.

With an eye-catching, durable metal body, the A70/A60 has advanced looks to match its advanced capabilities. Yet shooting is so easy, it's fun for anyone. Cross-configured buttons put all the camera's operations at your fingertips. Switch between shooting and replay with a touch. Access various shooting controls instantly with a new function button. You can even choose the image you see at start-up and the sounds the cameras make for common operations.

## Pick a mode and get the shot you want.

Getting the perfect shot has never been so easy! Simply choose Landscape, Night Scene, Portrait, Fast Shutter, Slow Shutter or Stitch Assist mode. When you're ready, Creative Zone modes give you manual control over aperture and shutter speed. Photo Effects make it easy to get creative with Vivid Color, Neutral Color, Low Sharpening, Sepia, and Black & White options. In Macro, you'll capture fabulous images as close as 2 inches. A fun Movie mode lets you film 3-minute movie clips with sound, with VCR-like playback and on-camera editing.

\* Approximately equivalent in the traditional 35mm film format.

## Connect and print.

Printing your images is easy too. Simply connect your camera to a compatible Canon direct photo printer with the cable, select an image on the LCD screen and print; no computer necessary. Card Photo Printers and Bubble Jet Direct Photo Printers deliver a variety of high-quality prints and fun creative options. And if using your Windows XP or Mac OS X computer to print, PTP support will let you transfer images to your computer without any additional driver.

with wide converter WC-DC52

without a wide converter

When using the Converter lenses, we recommend using the LCD monitor to preview composition and refraining from the use of the built-in flash to avoid harsh shadows in the resulting photos.

## Fun, creative accessories.

Optional accessories make photography even more fun and boost your creative possibilities. Use Canon telephoto and wide-angle lens converter for sharp 252mm telephoto and expansive 24.5mm wide-angle shots (lens adapter required). A new waterproof case, rated up to 130 feet with anti-fogging technology, lets you capture and share all your underwater adventures.
