

Sometimes saving paper is complicated.

Sometimes it isn't.

Lexmark E250d

A great desktop value – with duplex printing now standard!

Two-sided savings

With automatic duplex printing, you'll not only make considerable cost savings, but you'll help save the environment too.

Up to 28 ppm

Duplex as standard

Network ready model

High-speed printing

Thanks to instant warm-up technology and rapid 28 ppm print speeds, you can complete print jobs before other printers even wake up!

Business-class flexibility

Benefit from reliable PCL printing, an optional second input drawer, or a network model to spread the benefits to multiple users.

LEXMARKTM

Lexmark E250d/dn

Big advantages in a tiny package

Ideal for desktop users and cost-conscious small workgroups, the Lexmark E250d mono laser is compact, ultra-quiet (just 46dBa in Quiet Mode) and surprisingly affordable for a duplex printer – with no compromise to quality and performance! It's built to keep up with your demanding document needs, and it delivers professional output with crisp 1200 x 1200 dpi resolution in PCL.

The choice is yours

Choose between the standalone version, which offers reliable, high-speed USB connectivity, or the network model (Lexmark E250dn), which includes a Fast Ethernet port as well as PS 3 compatibility. You can also opt for a second drawer to boost your total input capacity to 800 sheets or run various media types without having to reload.

How much can you save?

Automatic duplex printing now comes as a standard feature – a real rarity for such a low-priced device! By printing on both sides of the page, you can drive costs down and reduce paper consumption. With up to 28 ppm and just 7.5 seconds to first page, you'll also save precious time. This makes it an intelligent solution for you, your budget, your office and the environment!
