HP Compaq nx7300 Notebook PC

Optimal combination of features including Intel® Core™2 Duo processors and 15.4-inch widescreen displays

HP recommends Windows® XP Professional

The HP Compaq nx7300 offers an affordable, thin and light mobile office by providing the optimal combination of features that maximize productivity without straining your budget.

Productivity on the move

The tools you need to accomplish more in less time.

- Starting at 5.6 lbs (2.54 kg) and 1.2" (30 mm) thin, the HP Compaq nx7300 provides best-in-class mobility in a 15.4-inch diagonal widescreen thin and light notebook.
- Choice of either a 15.4-inch TFT WXGA display with or without BrightView technology.
- New Intel® Core™Duo⁷ and Core™2 Duo⁷ processors allow simultaneous use of multiple applications so you accomplish more in less time.

Power and connectivity on the go

The connectivity and power that keeps you going.

- A variety of wired and wireless⁴ communication solutions help you stay connected.
- With HP's selection of extended-life batteries,⁶ you'll get power that goes with you.

HP Professional Innovations

A suite of value-added security, ease-of-use, and reliability features that helps make HP Business Notebooks the clear choice for your demanding mobile needs.

- Security – Solutions to help protect your notebook, data, and network connections.
 - HP ProtectTools is a portfolio of security features designed to address critical aspects of IT security.
- Ease-of-use – Intuitive and power-saving features that boost productivity.
 - HP Fast Charge Technology charges the primary battery up to 90% in 90 minutes then charges the secondary battery to keep you on the go.⁸
 - HP Smart AC Adapter can be shared across HP's 2006 Business Notebooks and includes surge protection.¹
- Reliability – Built to perform and proven to last.
 - HP Mobile Data Protection System helps protect data during normal use from shock and vibration.

HP Compaq nx7300 Notebook PC

HP recommends Windows® XP Professional

Operating system	Preinstalled Genuine Windows XP Professional Edition Genuine Windows XP Home Edition FreeDOS Windows Vista™ Capable - Not all Windows Vista features are available for use on all Windows Vista Capable PCs. All Windows Vista Capable PCs will run the core experiences of Windows Vista, such as innovations in organizing and finding information, security, and reliability. Some features available in premium editions of Windows Vista -- like the new Windows Aero™ user interface -- require advanced or additional hardware. Check www.windowsvista.com/getready for details.	Supported Genuine Windows 2000 (drivers downloadable from http://www.hp.com)

Warranty	One year standard parts and labor limited warranty (upgrades available ⁶), one-year limited warranty on primary battery	

1. The new HP Smart A/C Adapters will not be backwards compatible to prior generation notebooks. However, a dongle will be available to support existing notebooks in the field. Older HP adapters will not be forward compatible to the 2006 HP Business Notebooks. 2. Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. 4. Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract. 6. Sold separately or as an optional feature. 7. Dual Core is a new technology designed to improve performance of certain software products. Check with software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology. 8. Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9 cell primary and 12 cell Ultra Capacity batteries. 9. Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256). 10. Note that DVD-RAM cannot read or write to 2.6-GB Single Sided/5.2-GB Double Sided – Version 1.0 media. 11. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB of memory is reserved for system recovery software. 12. Memory greater than 2-GB requires Mobile Intel 945GM Express Chipset. Above 3-GB, all memory may not be available due to system resource requirements. 13. Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs. 14. 667-MHz memory is supported at 533 MHz by the Mobile Intel 940GML Express Chipset.
